# THE CAROUSEL BAR & LOUNGE

11:00AM - 9:00PM

## A LITTLE “LAGNIAPPE” (LAN-yap)

Installed in 1949, the 25-seat Carousel Bar turns on 2,000 large steel rollers, pulled by a chain powered by a one-quarter horsepower motor.

Patrons circumnavigate at one revolution every 15 minutes,  
but the ride doesn't end there...

In the early days of the Carousel Bar, the hotel was the home to the famous Swan Room, a nightclub where celebrities such as Liberace performed.

The bar was renovated in 1992 when the current carousel top was added.

In 2011, the Hotel began an extensive renovation and expansion of the lounge area, including the addition of a second stationary bar. The lounge also features live musical entertainment several nights a week.

The background of the page features a detailed line drawing of two horses. On the left, a white horse is shown in profile, facing left, with its head slightly lowered. On the right, a brown horse is shown in profile, facing right, with its head slightly lowered. The drawing uses fine lines and cross-hatching for shading and texture, particularly in the manes and tails. The overall style is reminiscent of a woodcut or a detailed pen-and-ink illustration.
